

Malawi Optical Cable Network

Overview

The Optic Fibre Communications (OFC) is a semi-autonomous department within ESCOM that operates a national wide overhead Optic Fibre backbone network strung on electricity infrastructure reaching all parts of the country and the National Data Centre supported by the Malawi Government. This gives. To revolutionize the future of connectivity, as a leading provider of optic fibre solutions, driving a Malawi where connectivity knows no limits. We aspire to create a comprehensive network infrastructure that transforms lives, fuels innovation, and propels societies into a new era of digital. OCL has various networking equipment on its network with their capacities ranging from STM1 to STM64. The current total backbone bandwidth capacity of OCL is 9920 Mbps. Open Connect Limited's Enterprise data center is a location with redundant and dual-powered servers, storage, network links and. Open Connect Limited is an open access Network that serves as a National Backbone to all players in Malawi with a well-established metro network that feeds into the Backbone and a well layered Access dark fibre Network to reach all end user customers. In 2023, Liquid Intelligent Technologies launched a new fiber route between Zambia and Malawi to provide faster, more direct. Malawi has embarked on the ambitious Digital Malawi Acceleration Project (DMAP), a \$150 million initiative aimed at enhancing internet accessibility.
