

Xiaomi Router Connected to China Mobile Fiber Optic Cable

AI Overview

To connect a Xiaomi router to China Mobile fiber optic service, you need an ONT, an Ethernet cable, and proper router configuration.

Required Equipment

- Optical Network Terminal (ONT):** Provided by China Mobile, this device converts the fiber optic signal into an Ethernet signal compatible with your router.
- Xiaomi Router:** Ensure it has a WAN port for Ethernet input.
- Ethernet Cable:** Typically Cat5e or Cat6 to connect the ONT to the router.
- Fiber Optic Cable:** Supplied by China Mobile, usually with SC/APC or SC/UPC connectors.
- Power Adapters:** For both the ONT and the Xiaomi router.

Step-by-Step Connection

- Install the ONT: Locate the fiber optic wall outlet from China Mobile. Connect the fiber optic cable from the wall outlet to the ONT's fiber port.
- Power on the ONT and wait for the status lights to stabilize (usually 2-5 minutes).
- Connect the ONT to the Xiaomi Router: Use an Ethernet cable to connect the ONT's LAN port to the WAN port on your Xiaomi router.
- Power on the router and wait for the indicator lights to confirm a connection.
- Configure the Xiaomi Router: Connect a computer or mobile device to the router via Wi-Fi or LAN. Access the router's web interface (usually at 192.168.31.1) or via the Xiaomi Mi Wi-Fi app. Set the WAN connection type according to China Mobile's requirements (often PPPoE). Enter the username and password provided by China Mobile. Save settings and reboot the router if necessary.
- Verify Internet Access: Check the router's status page to ensure it shows an active internet connection. Test connectivity on a device to confirm proper setup.

Tips and Troubleshooting

- Ensure the fiber connector is fully seated in the ONT to avoid signal loss.
- If the Xiaomi router does not have a fiber port, the ONT must always be used as a bridge.
- Update the router firmware to the latest version for optimal performance.
- For multi-gigabit setups, use Cat6a or higher Ethernet cables to maintain...
